TEST COMMENTS:

Plot was planted the last week of April and achieved really good stands. Received some good rainfalls when needed, but was a little over 7 inches short of the ten year average. Plants were shorter than some we have seen this year and diseases were starting to set in. Ears were hanging down on most hybrids. Most were filled close to the tip and were nice and girthy. It has been surprising how much drydown has happened in the last week.
